**“Transforming lives through Leadership –  
Theological Training for Women in the Pacific”**

*Across the Pacific, Churches are central to family and community,  
but leadership is predominantly male.*

*The voices and representation of women are often excluded  
in decision-making, preaching and teaching, and  
leadership, reinforcing the gender power-inbalances in society.*

*UnitingWorld support women to study theology and move  
towards ordination, equipping for leadership in church and community.*

*We need your support to make that happen as most of these women  
don't have financial resources to fund their own tertiary education.*

*Scholarships provide for tuition fees, board and lodging  
and study supplies for three years.*

Full scholarship for 3 years	\$4,000 per year	\$12,000
Half scholarship for 3 years	\$2,000 per year	\$ 6,000
